

Digging the garden

Watch and listen to the song and join in with the actions to help you learn it. Maybe you can try to make up your own actions too!

Digging the garden

A little patch of brown soil,
Waiting in the garden,
Needs a bit of our toil,
There's some work to be done!

*Digging the garden,
Digging the garden,
Digging the garden,
There's some work to be done!*
Clearing the ground,
Pulling the weeds,
Rake it nice and flat,
Sowing all the seeds.

Water the ground,
Pulling the weeds,
Soon the seeds will sprout,
And grow a plant for all to see.

You can sing along to the performance track here too! We would love to see your performances – send them in on the home learning email or Twitter!
