

Key Facts	
Felixstowe	Felixstowe is a seaside town on the Suffolk coast. Lots of people visit it for a day trip or for a holiday.
Landguard Fort Nature Reserve	This is a SSSI (Site of Special Scientific Interest) because of the shingle habitat is found there. There are only a few in the UK.
Pollution	Pollution, especially plastic, is very harmful to our beaches and is dangerous for animals that live in that habitat. Lots of plastic ends up in seas and oceans across the world. It takes about 400 years for a plastic bottle to degrade!

Vocabulary 10	
Beach	A pebbly or sandy shore by the sea.
Coast	Where the land meets the sea.
Countryside	Land that is away from towns and cities.
Environment	The conditions of a place for example, hot, cold, wet or dry.
Habitat	The environment where an animal or a plant lives or grows.
Ocean	One of the five very large areas of salt water on the earth's surface.
Pollution	Where water, air or land becomes dirty or dangerous
Sea	A large area of salty water that is usually surrounded by land.
Seaside	An area that is close to the sea, and where some people go on their holiday.
Tide	The change in how high the oceans or seas are where the wave flows away from or back to the land.

Home Geographer:

- Talk about seaside locations that you, family or friends have been to. Think about what they are like – the beach, the wildlife, the plants and activities that happen there.
- Look at a map and find where you live and where Felixstowe is.

Location of Felixstowe in the United Kingdom beach
