We are Safe Online

Things you already know:

- Have some understanding of what can help to make you safe online.
- Knowledge of how to use a presentation tool such as Microsoft PowerPoint.

Knowledge you will gain:

- Know how to report any issues of cyberbullying or online concerns you might have. Specifically knowing about the 'CEOP report' button on our website (and many other school websites).
- Understand the risks of different communication tools including instant messaging, text messaging, social media including Musical.ly, facebook, Snapchat and Whatsapp.
- To know the age limit on popular apps and discuss the reasons why these age limits apply and have been increased in some cases.
- Know the simple 3 rules to keep safe and create a presentation to others to demonstrate an understanding of this.
- Experience online forums/open notice boards and understand what is and isn't appropriate to post.

Zip it – Don't share your personal information with strangers. Keep your profile settings private.

Block it – Block friend requests from strangers on social networking sites.

Flag it – Always tell a trusted adult if something online scares/upsets you. Report any meeting requests from strangers to a trusted adult. Remember to be as careful online as you are offline.

To report concerns click here– button can be found on our website.

CEOP REPORT
ceop.police.uk

Vocabulary

CEOP: Child Exploitation and Online Protection is a command of the National Crime Agency and they have a report button on many schools websites to report online abuse, cyberbullying or concerns.

moderated chat: chat that has either a person or a computer (automated moderation) checking and filtering messages posted.

social Media: a site or app that allows people to link together to post messages to everyone, groups or individuals.

phishing: a message sent pretending to be from a proper company, but is trying to trick you into giving away personal details, passwords or bank details.

virus: a program that installs on your computer and causes damage.

Specific skills/understanding

Understand the longevity of posting content online and being aware that once it is posted it can't be taken back as others may have forwarded/copied/shared that information. To understand that internet safety is all of our responsibility.

Ongoing skill set

Change between applications either by snapping windows to the sides or using windows+tab or alt+tab to toggle between applications.
